Dear Mr. Lake.

Enclosed is our price list and the catalogue page of a book I did not publish that our store has or can get.

I went into Brennan in some detail in Whitewash I but after almost 31 years I do not clearly recall all I there said. I am pretty confident, however, that some of what you say is new to me, especially about his not looking when it counted. If you would be kind enough to put that together separately I'd like to have it on file and for archival purposes.

Case Open was butchered in being published. St least 75% was just axed out.

I believe I went into more on Brennan in what was eliminated but again I do not have a clear recollection.

To me Belin is below contempt. I will not be surprised if in the end he cracks up because of what he did and since then has done.

Best wishes,

Harold Weisberg
